

DAVIS DENIES ORCHARD'S STORY

Defense Witness In Haywood Trial Says Orchard Killed Governor From Revenge

Boise, Idaho, June 26.—Wm. F. Davis, of Goldfield, Nev., one of the most important witnesses for the defence of A. D. Haywood, accused of the murder of Frank Steunenberg, was called to the stand to-day, and his cross-examination had not been completed when the court adjourned.

Harry Orchard testified that Davis had commanded the mob that destroyed the Bunker Hill and Sullivan mill in 1899, inspired as the agent of arrest and mover, the Vigilantes.

destroyed the Bunker Hill and Sullivan mill in 1899, inspired as the agent of Laywood and Moyer; the Vindicator explosion and the train-wrecking plot at Cripple Creek, and was an accomplice in the Independence station

On direct examination by Clarence
arrow, Davis went over the story
his working life, and made positive
 denial of every statement of Orchard
at involved him or his associates in
ny form of crime. Davis denied that
he was even a member of the union
hen the Bunker Hill and Sullivan

At the conclusion of his general story, Davis swore that at Cripple Creek during the strike-Orchard told him of the Hercules mine affair, and requested to kill Stuenenberg. The cross-examination of Davis by Senator Bohar was severe and searching. It was chiefly devoted, as far as it proceeded, to the Bunker Hill and Sullivan affair, and the circumstances under which Orchard made the threat against Stuenenberg. Davis asserted that his conversation

While he saw the train in charge of the masked mob arrive and depart from Gem, he could not name anyone on the train except Engineer Hunton. He said there was no excitement, and made no enquiry about the mob. Davis said that he remained in hiding after the mill was blown up, because he did not want to be deported or thrown into "the bull" pen, and that he changed his name when he departed.

from Butte shortly afterwards, because he feared the mine owners' "black list," made up from a petition that the employees of the Bunker Hill had sent to Governor McConnell, protesting against the unsafety of the mine.

Bohar showed that the petition had been presented six years before, and that Butte was a federation camp where the black list was ineffective. Passing to the alleged threat that Bohar made against St. Louis, he

Mrs. Lottie Day, of Denver, testified that in 1904, Orchard told her about the loss of his interest in the business, and that he said he would kill Steuenberg for the wrong he did him. John D. Elliott, an old soldier, swore that Orchard told him in a train in the fall of 1905 that

Mrs. Lottie Day, of Denver, testified that in 1904 Orchard told her about the loss of his interest in the Greules mine, and that he said he would kill Steunenberg for the wrong he did him. John D. Elliott, an old

Cross-examination showed that Elliott had twice been in an insane asylum with a mind unbalanced by silly troubles.

John O'Neill, editor of the Miners' magazine, was the only other witness during the day. He testified that Orchard came to his office early in 1905, and asked for the addresses of Governor Peabody and General William Bell, who, he said, should "bumped off." O'Neill said that he referred Orchard to a city direc-

the state used the cross-examination of O'Neill to make it clear that the magazine was the official organ of the Federation and expressed the Federation's views, and read to the jury from the magazine some eulogistic articles about the death of Steinberg. O'Neill also said that he had been to the Orchard at Federation headquarters several times, and that Steve Williams and Mrs. Williams had also

Mrs. Day's Evidence.
Mrs. Lottie Day, Jr., who knew Fry Orchard in a rooming-house in Denver, under the name of J. Haywood, stated she met Orchard prior to the convention of the Western Federation of Miners, in 1914. Once while she was talking to Orchard, Haywood and a man named [redacted] also [redacted]

Once while she was talking to
hard, Haywood and a man named
should also connected with the

Orchard, who connected with the
creation, came in. Orchard intro-
duced her to Haywood and then went
away with him. The witness related
the conversation with Orchard, when
the latter told her that poverty had
driven him from the one woman he
loved, and Steunenberg was re-
sponsible for his being poor, and he
would get even with him if it was the
last of his life.

ard was telling her about his ex-
wife, he said he always kept a lit-
tle money put away, and when he
heard a "raise" he put some money
with Pettibone and drew it out
as he needed it.

Mrs. Day was introduced to Or-
ford by Pettibone, whom she had
known for two years prior to 1934.
Wood, she said, asked for Orford
and went up to his room. Pettibone,
she said, never went up to Orford's
room.

THE LIVE STOCK WHICH WILL BE AT THE FAIR

Entries Pouring In—All The Exhibitors Back And Many New Ones—Some New Classes - Red Polls And Suffolk Purses Separate Class For Percherons

Entries for the great Edmonton Industrial Exhibition, which will swing open its gates next Monday, have been pretty generally distributed at nine o'clock, are beginning to pour in. As at six o'clock, last night Secretary Mountfield has had entries distributed among the various classes.

The live stock exhibit promises to exceed in number and quality anything ever exhibited in Edmonton. During the year many of the famous herds of Alberta have been strengthened by importations from Scotland and purchased at the improved stock sales of Manitoba and Ontario. The cream of eastern breeding is gradually finding its way into this province. The stock men are realizing that Alberta is not a stock raising and a sell that is entirely cut off from the live stock industry. There are things taken into consideration, can be fed and rested cheaper in Alberta than in any province in Canada.

Some of the Shorthorn Exhibitors.

The great name of Turner is in the list again. The name of the Turner herd and all has been throughout the length and breadth of Canada, and is well known in the world. Among his exhibits this year will be Brown Robson and Royal Rose, a beautiful and typical pair of shorthorns. Farnham, of Spruce Grove, also has entered his shorthorn, a pair of shorthorns, and should take some of the money that is being put in his class.

H. Ford, of Red Deer, Alberta, will be here with Remus, a shorthorn bull.

John Ramsay, of Red Deer, will have a herd of 12 shorthorns, and the head of the herd is Lucerne. It also includes three other young bulls and six cows.

Herefords.

James Tough is an old exhibitor in this class. He has 25 Herefords, including Gladstone, which he will enter in the grand championship, and two two-year-olds, Prince and Albert junior, Choke Cherry, a cow. Hereford cow that was an exhibition prize.

F. Weeks, Belmont, is another exhibitor in the Herefords with one entry, son of Cook Robin, an aged bull.

Red Polls.

John Elliot, of Strathcona, will be on hand with a herd of six red polled cattle. This is a new herd in the Edmonton show ring and will undoubtedly be a feature of the fair. Perry, a year old bull, will be placed against all comers in the grand championship.

Helsteins.

W. H. Mullins, of Ponoka, is the only representative of the Helsteins exhibitors so far. The head of the herd is Prince Groat de Kol. Two other head stand high in the winners in their class are Sir Akkrone, de Kol Burke and Francis Bonnie.

Horses.

A separate class has been introduced into the prize list this year for

Percherons. This change from the old list was decided upon after the first entries had been received. There has been pretty generally distributed the entries for this class.

Harry Allen, of Star, is the first to enter in this class.

Jacques, of Lacombe, will be the first Alberta breeder to exhibit a Percheron. There is no provision for prizes for sires or geldings, the secretary of the Fair Association has written Mr. Jacques to bring all his stock to the fair. No doubt the directors will recognize the merit of this excellent heavy draft horse and prize breeding as Mr. Jacques.

Mr. E. K. Strachy, of Lacombe, is well known to the Edmonton public, and will be a feature of the fair. Strachy generally exhibits a small number in each class, but this year is a blue blood and a prize winner. This year Harry Laid, a Clydesdale stallion, is a prize winner. The stallion is a prize winner. The stallion is a prize winner. The stallion is a prize winner.

Swine.

The entries in swine are few as yet. James Tough has a few sets of improved Yorkshire swine, which will exhibit pure bred and cross bred swine. The three Jerseys will be represented by a pen belonging to Robert Strathcona.

There have been up to this date no entries in sheep.

The directors purpose having the ring in good condition, and after Friday evening will not permit the playing of any games on the grounds.

The Admission Prices.

The rates for admission are similar to those which obtained last year. A ticket good for the six days of the fair will be sold for \$1.25. The general admission to the grounds will be 25 cents children under 12 cents.

The admission to the grand stand will be 25 cents also, and for a grand stand reserved seat 25 cents additional for afternoon performance. Passengers and auto buses, will be charged \$3.00 for the season, express \$1.00, and private cars, \$2.00 for each time of entry and 25 cents for each passenger. No vehicle will be allowed inside the track. Automobiles must be kept away from the track.

Nine "Friscons" Indicted.

San Francisco, June 26.—The grand jury this afternoon returned to Judge Louder's court four indictments against nine persons, charging them with acts of violence against the United Railroads during the recent strike.

LEAVES IT TO THE COUNTRY.

Mon. H. R. Emmerson, Places His Reputation in the Hands of the Great Jury.

Toronto, June 26.—"I leave my reputation to the great jury, the country at large," this was the statement of the Hon. H. R. Emmerson, in speaking of his libel suit against the Frederickton, Glenora.

Mr. Emmerson arrived in Toronto last night. He is on his way to Regina and left Toronto to-night. He is here on private business to-day. In regard to his libel suit and the happenings which led up to it, Mr. Emmerson had little to say. "I am not troubling about it at all," he said, "since the court has ruled that any paper can publish what it likes about public men, so long as it is before what it publishes. I have no further interest in what they are doing in Frederickton. It is just like hitting your head against a stone wall. I am satisfied as far as the preliminary examination is concerned, for they certainly failed to prove the ridiculous charge that I was elected from a hotel with two women of ill repute. I am willing to leave it to the public to decide whether or not I am guilty."

WHEAT THREE FEET HIGH.

In the Nanaimo District According to Calgary Man.

Calgary, June 26.—Mr. Harry Ozer, who has just returned from the Nanaimo district, reports wheat there three feet high. When passing a field owned by Mr. Al. Buzette he pulled up a bunch, not selected, but similar to that of the entire field and found that it measured exactly three feet in height, with the exception of one spike, which stretched up three feet higher. In the same district, the oats were 2 feet 6 inches in height.

61,000,000 FOR ROADS.

Ontario Will Spend That Amount in Improving Highways This Year.

Toronto, June 26.—About three thousand miles of Ontario's roads have been brought during the past year under the working of the Good Roads Act. Since the organization of the department, ten years ago, the township have raised, in addition to the county grants and subsidies of the county, towns and villages, \$10,000,000 for good roads. The amount of \$10,000,000 is being expended during the coming year. The general adoption of road-making machinery and intelligent method of construction have accomplished wonders in the last five years.

UNITED STATES HARVARD'S DUTY SENDS WARSHIPS TO HER COUNTRY

Into Central American Waters To Protect American Interests Is To Educate Good Men For Politics—Ambassador Bryce Given Degree

Washington, June 25.—The possibility of serious trouble in Central America, growing out of the unhealthy conditions existing there incidental to the alleged ambition of President Zelaya, of Nicaragua, to form a union of Central American States, has caused the United States administration to despatch the fine new cruiser Milwaukee to that region. Orders for her to proceed forthwith from the Mare Island navy yard, California, went forward from the navy department today. The vessel is in command of Commander Chas. A. Gove, and she will go to Lianzon, San Salvador. The Collier, Saturn, has been also directed to proceed to the Lianzon and the gunboat Milwaukee, which is now at Acapulco, will go. The stay of the Milwaukee in Central American waters is problematical and will in a measure depend upon the conditions that develop in that part of the world. She goes ostensibly "for the protection of American interests," which are threatened because of the situation as it now exists.

The cruiser St. Louis, now on her way to a Brazilian port, en route to the Pacific coast and will arrive at Lianzon, San Salvador, in two months. It may be that she will relieve the Milwaukee in the event that the administration decides to have that vessel return north, and it is deemed wise to continue the presence of two American vessels in that section.

Convicted of Manslaughter.

Kemora, Ont., June 26.—John St. Anand, who was under trial here for the murder of a companion, named Routley, in a hotel brawl, some time since, was convicted of manslaughter, and will be sentenced to prison.

THE MERCHANTS' BANK OF CANADA.

The progress of our banking institutions is a matter of legitimate concern not only to the shareholders, but to the public generally. Both interests are to be congratulated upon the report presented to the shareholders of the Merchants' Bank of Canada at their annual meeting yesterday. While the net profits of the year business will amount to the shareholders as a highly satisfactory. The public will find much cause for gratification in the sound, healthy condition of affairs revealed by an analysis of the report. Last year the bank paid seven per cent. dividend, this year it is paying eight per cent. It is adding \$300,000 to its reserve fund. Its capital is \$5,000,000 and its reserve now amounts to \$4,000,000. Against its liabilities to the public, the bank has \$2,500,000. It has assets immediately available of \$18,801,299.73, and time loans on bonds and stocks in the United States, amounting to \$1,248,653.24. The total assets are \$20,050,952.97.

It is also gratifying to note that the bank is doing a larger commercial business than ever before in its history; a fact which indicates that it is doing its full share in supporting the money for the development of Canada. Altogether, the board and Mr. E. P. Hebert, the general manager, are to be warmly congratulated upon the results of his second year of general management.

SCHOOL AT LAO LA NONNE.

B. Hambling of Lao La Nonne, was in the city Wednesday. His trip to Edmonton was for the purpose of securing the furnishings and supplies for the new public school which will be opened with becoming ceremonies on Dominion day. The new seat of learning is the second one established on the Red Deer river, and will start with an attendance of over 30. Mrs. J. Bullans, a teacher of considerable experience, has been secured and will commence work on Tuesday. The structure will be known as Dunstable school, so called after Mr. Hambling's residence in England. The particular reason this name was given the school is because the children of the Dunstable, Eng., school raised sufficient funds to purchase a fine Union Jack which will float over the Lao La Nonne school in future. The flag has been received by Mr. Hambling, and the holding of it will be among the features of the opening ceremonies on Monday.

In the same district, the oats were 2 feet 6 inches in height.

61,000,000 FOR ROADS.

Ontario Will Spend That Amount in Improving Highways This Year.

Toronto, June 26.—About three thousand miles of Ontario's roads have been brought during the past year under the working of the Good Roads Act. Since the organization of the department, ten years ago, the township have raised, in addition to the county grants and subsidies of the county, towns and villages, \$10,000,000 for good roads. The amount of \$10,000,000 is being expended during the coming year. The general adoption of road-making machinery and intelligent method of construction have accomplished wonders in the last five years.

Calgary, June 26.—Mr. Harry Ozer, who has just returned from the Nanaimo district, reports wheat there three feet high. When passing a field owned by Mr. Al. Buzette he pulled up a bunch, not selected, but similar to that of the entire field and found that it measured exactly three feet in height, with the exception of one spike, which stretched up three feet higher. In the same district, the oats were 2 feet 6 inches in height.

WHEAT THREE FEET HIGH.

In the Nanaimo District According to Calgary Man.

Calgary, June 26.—Mr. Harry Ozer, who has just returned from the Nanaimo district, reports wheat there three feet high. When passing a field owned by Mr. Al. Buzette he pulled up a bunch, not selected, but similar to that of the entire field and found that it measured exactly three feet in height, with the exception of one spike, which stretched up three feet higher. In the same district, the oats were 2 feet 6 inches in height.

GONE, BUT NOT TO BE FORGOTTEN

A Macleod jury a few days ago decided that Felix Montalbetti was not guilty of perjury in connection with the declarations made by him to the department of the Interior as to his priority of squatter's rights to the land, which afterward became the townsite of Blainmore. As Montalbetti's rights were not determined on the basis of the statements claimed by him to have been incorrect, the finding of the jury had nothing to do with proving or disproving the validity of his claim. The verdict does, however, perform the last sad rite of infamy on the part of the slanderer with which the Opposition sought to deflect the attention of Parliament and the country from the doings of the "Fosterian" crew.

The declaration of the former Commissioner of Dominion Lands, that his decision was in no measure determined by the statements in question, and the publication of the findings of the courts, left nothing of the slander but its ruin, and the order of it is the fastest around the tapes of its relatives. Now the Macleod jury declares that Montalbetti did not swear falsely in his declarations. Recognizing the import of this, the Opposition press is "directly silent." It is only when the word would have shrieked at the "bare-faced robbery of the people's rights" are occupied by sly pathetic dissertations on the health of Mr. Chamberlain, and twofold platitudes about the "Hague conference." These organs appear to be content gratifying themselves that the deed remains have been quietly laid away unnoticed by the public, to be "bitterly" unremembered "in peace," and trusting that the breeze will wait away the last lingering aroma of a slander that perished in its youth.

Well, perhaps, as our Opposition friends are hoping the squabblers an over, but there remains yet the post mortem. The Macleod jury have ruled the Blainmore slander beyond re-ascertainment, but they have also paved the way for an investigation into the origin and career of the deceased. This investigation promises to be quite as interesting and considerably longer lived than the slander. There are many matters in connection with the case to be cleared up, and they are matters on which the Opposition and their corporation allies are qualified to throw light. The situation now is this: Montalbetti made certain declarations; afterward he declared that these were false; a jury now finds that they were not false. If Montalbetti told the truth in his declarations, who suggested to him to alter what he said? What means were adopted to persuade him to do so? What influence was brought to bear upon him? This powerful enough to lead him to confess himself a liar? Was it fear of a corporate employer? Or of political influence that might be brought to bear in quarters? Was it the hope of carrying favor with one or both of these allies? Was it the hope of reward? The promise or suggestion of position or other benefit to the individual acceptable service against the common enemy? What were the means employed to persuade Mr. Montalbetti that it was to his interest to disown himself as a falsifier? And who was the agent who undertook the task?

These are matters on which the revived relatives of the departed slanderer should be able to provide information. As evidence of their single minded concern for the public interest they owe it to themselves to do so.

"DO UNTO OTHERS."

Dr. Sproule, M. P., has been making a speech—which is the same as saying he has been denouncing someone for doing to worship at a different altar. This time he appears to have exceeded himself, and while warning his hearers against entertaining sentiments of bigotry, warning them to cause Sir Wilfrid Laurier has done to visit Rome. This surely is the

zenith of absurdity.—Suppose, the Doctor were touring Europe, would he not visit the cathedral at "Derry," or wander by the banks of the Boyne? And would he expect to be made the target for a tirade because he did not? The traditions Dr. Sproule holds dear are worthy of respect, but not more than the faith by which no other man lives. As he would not consent to be ridiculed or abused for visiting the localities with which his religious traditions are associated, he should not condemn another man for visiting the sacred and visible head of his church whose faith he cherishes.

SATISFACTORY OUTLOOK.

The Winnipeg Commercialist estimates the wheat crops of the western provinces for the season at 120,000,000 bushels. Last year's crop was only 92,000,000 bushels. The estimate appears somewhat optimistic but may be well founded, the increased acreage in Alberta and Saskatchewan more than counterbalancing the supposed decrease in Manitoba. The present prospects are, too, that the yield will be splendid, and the prices more satisfactory than usual. Taken altogether, the West never had a more satisfactory crop outlook at this time of the season.

ON THE SIDE.

Forest fire is raging in the Cobalt district. It will not be an unmitigated evil if a few hundred "wild cats" are snuffed out.

The Calgary Albertan has put up a Shetland pony as prize for a subscription campaign. From the picture of the horse, the campaign is going hard with him.

The Standard Oil Co. will cast oil on the troubled waters of the Atlantic. Needless to say, the "Monarchs" will be enclosed in a large which will be towed over to England.

Hon. Geo. E. Foster told his North Toronto constituents he would receive his "ammunition" until a more "opportune" occasion. He was well advised. Bomb cartridges are out of season.

Financial and Commercial News

NEW YORK STOCKS.

Professional Operators Best Market and Take Profits.
New York, June 26.—The principal street in today's stock market centered in its technical position, and the aggressive activity and strength which it maintained during the profit-taking rally. Later the market was not so favorable, and the organized output of price was not pursued. Presumably because the process of realizing profits had been successful, it concluded. The result was a disappointment to a following that had looked for a prolongation of the movement over the end of the month. It was expected that the investment of profits to be delayed until the month might be the objective view of the operators for the advance. In taking of quick profits, however, in view of possible contingencies, and he reaction in foreign exchange went further today. A feature in the money situation was the further making of discount rates in London, and the continued offering in the exchange market for bank bills of exchange to draw foreign funds for banking in this market. A sharp rebound in the London prices of copper was a help to the copper industry. There was some revival of fear damage reports, and this may have been conducive to the later rise in stocks.
The closing time was easy with not much more numerous than gains. Bonds were irregular. Total sales par value \$1,048,000. U. S. bonds were unchanged on call.

CALL MONEY.

Money on call steady, highest 3 1/2, next 2 3/4, ruling rate 2 1/2. Last June closing bid 2 1/2; offered at 3. Time money strong, and dull, 60 days, 4 1/2 per cent.; 90 days, 4 3/4 to 4 1/2, six months, 5 1/2.

STERLING WEAK.

Sterling exchange weak, at 45 1/2 to 45 3/4, for demand and at 45 1/2 to 45 3/4 for 60-day bills. Posted rates, 4 1/2, 4 3/4, commercial bills, 45 1/2; bar silver, 47 1/2; Mexico, 20 dollars, 50 to 1 1/4; Government bonds steady. Railroad bonds irregular.

BOSTON COPPER.

Boston, Mass., June 26.—Dealings in copper were quite head and the market had a good aggregate of morning business, especially in the afternoon, when prices yielded a little.

NEW YORK WHEAT.

New York, June 26.—Wheat receipts 99,000, sales 100,000. On the whole wheat was well sustained all day, in face of dullness, and closed half a dollar weaker than higher. The principal bulk influences were from Paris cables, rain in Southwest harvesting sections, and unfavorable weather news from France and a bullish Kansas crop estimated July 1904 to 1,000,000; closed 1.00 1/2; September, 1.00 1/2 to 1.01 1/2; December, 1.02 1/2 to 1.03 1/4, closed 1.03 1/4.

Corn receipts, 103,000; exports, 121,571. Sales 65,000; spot firm. Pig Iron—Quiet, Northern 23.00 to 25.00; Southern, nominal. Copper—Dull, Lake 20 to 24. Lead—Dull, 2.70 to 2.80. Tin—Dull, straight, 42.75 to 43.75. Spelter—Dull, domestic 6.30 to 6.45.

JUDGE LOVING'S TRIAL.

Physicians Say He Was Continuous-ly Drunk for Four Years.

Houston, Va., June 26.—That for mer Judge Loving for years was an excessive drinker, and at times suffered from delirium tremens, was testified today by John T. Bewley, an American citizen at the trial of the former for killing Theodore Beard because of his alleged mistreatment of Loving's daughter. Bead said this opinion had changed Loving's disposition and that he had been continuously drunk for four years while in Auburn county. B. R. Harrison, a former lawyer, corroborated Bead and added that Loving worshipped his daughter, Elizabeth.

FREE HOMESTEADS.

MISSING WOMAN FOUND.

Some days ago information was requested through the Bulletin regarding the whereabouts of a girl from England by the name of Harley, who had reported to her mother in the old country that she was ill and wished to get back to her home.

The local immigration department took the matter in hand, and have ascertained the whereabouts of the missing one, and also that the story of destitution, as she had told in her letter, was in great part untrue. Since coming to Edmonton the girl had been working at one of the hotels under a new name, but when questioned stated that she was married to a fellow countryman who is now housekeeping some distance to the northwest of the city. She had no lack of funds, and in view of the publicity she obtained, she returned to Calgary, where she now resides.

WHEAT 1 1/2 FEET HIGH.

Nine miles from Edmonton in the Clover Bar district, on W. F. Stevenson's farm, is a field of winter wheat which shows a wonderful growth. The wheat in this field is actually now six inches high. This is viewed for its adaptability and the view of more than one reputable person who has seen the wheat. The wheat is of the timothy Giant variety.

Hidden Skin Troubles

Have you on some part of your body a sore, or eruption, or ulcer, or scabrous patch which, hidden from the gaze of others, yet causes you hours and hours of pain and inconvenience? Have you tried this, and that, and the other remedy in vain, and are you feeling disheartened and discouraged? If so read the following instances of Zam-Buk's healing power, and apply it to your case:

"I had an abscessed leg for several years. The doctors opened all round the limb, which was swollen to nearly twice the normal size. Several doctors treated me, but no improvement. 'None did me any good. Zam-Buk healed the sore!' So says Mrs. J. H. H. of Pittsburgh, Pa., U.S.A."

"My mother tried many things for skin diseases and eruptions, but in vain. In Zam-Buk she found a complete cure." So says Miss A. G. G. of St. Louis, Mo. U.S.A. "Zam-Buk has been at the last when applied to cases which have defied ordinary treatment. Write for 'Zam-Buk' and tell us how you can improve."

ZAM-BUK AND A MIRACLE OF HEALING

Over and over again Zam-Buk has performed a miracle of healing when applied to sores and skin eruptions which have refused to heal under any other form of treatment. Why not let it be your trouble? Immediately Zam-Buk is applied to a sore or wound of almost any kind it will be healed in a few days. It soothes the pain, kills the bacteria, and its antiseptic properties prevent any further infection from entering the wound. The best of all is that it is so simple to use, and so economical, that it can be used by anyone. It is a true miracle of healing.

In the way Zam-Buk cures cuts, burns, bruises, sores, abscesses, skin eruptions, psoriasis, scabies, rashes, itching, and all other forms of skin trouble. Zam-Buk also cures piles, hemorrhoids, etc. All druggists and grocers sell it at the price, or from Zam-Buk Co., Toronto, for price. 6 boxes \$2.50.

LOCALS.

Messrs. Smith & Eaton have opened a cafe called the Waldorf, on First street, just north of Alberta college.

The W. S. Wicks Co. are fitted up in the offices lately occupied by the Credit Foncier on Third street.

The Kelvin theatre on Third street will be opened this evening with five sets of vaudeville bill, with moving pictures and illustrated songs.

James Rannerman, the caretaker of Mr. Kenney Macleod's residence on Third street, was taken quite ill yesterday and brought to the General hospital for treatment.

A meeting of the directors of the Society for the Prevention of Cruelty to Animals will be held in the basement of the Presbyterian church at 4:30 o'clock this evening.

Jan. L. Porter has been appointed speaker for the Exhibition Association to supervise the transportation of stock of Strathcona to the fair grounds. The rate has been fixed at 80 per cent return.

The manager of one of the largest and most influential banks in the East said recently: "The fact is that Canada is growing larger than the bank capital, and that is the cause of the present tightness of money in London and other Canadian centers."

McDonald street south is by no means yet in good condition for a Fair. The city commissioners propose, however, to have the road in shape by Monday. This assurance was given by the mayor two weeks ago.

At the Mounted Police barracks this morning the notorious "Doc" Sullivan, of Isolation hospital fame, arrested several days ago, was arraigned on a charge of vagrancy and remanded for a week, in order that more evidence could be secured in the case.

Dechene and Duhamel of the 59 cent store have opened a new store in Saskatoon this week. It is the plan of these two enterprising young business men to locate such stores in the principal towns of Alberta and Saskatchewan.

The Canadian Electrical association will this year hold its annual convention in Montreal, September 11, 12 and 13. A very interesting programme is being arranged, and as an electrical exhibition will open at that city on September 2 and continue for two weeks, it is expected that there will be a very large gathering of the electrical fraternity. The secretary of the Canadian Electrical association is C. S. Young, Confederation Life building, Toronto.

Under the guidance of the immigration branch of the department of the interior, a party of English journalists will make an extensive tour through the Dominion this summer. Two cars will be furnished by the C.P.R. to accommodate the visitors. Eight of the party will travel in a private dining and sleeping coach, while the others will go independently. The members are expected to arrive in St. John or Halifax in August, and will journey through to the Northwest during the harvesting season.

St. F. W. Borden, minister of militia, was the guest of honor at the dinner given by the officers at camp at Niagara on the Lake last week. The minister gave figures and facts regarding the Canadian militia increased out of maintenance. He derived satisfaction from the fact that the expenditure of the leadership of \$100,000 per annum, while the cost of the militia in general had increased in 11 years from \$1,500,000 to \$6,000,000. Mr. Borden declared that Canada's militia might be increased from the present strength of 40,000 to 90,000 in order to provide adequate defence to the country.

The potato bug pest threatens to be very serious this year. The bugs have put in their appearance in large numbers than ever before, and already some gardeners have had to nip their plants to their petioles to save their savings. It was at one time thought that these insects could not survive the winters here, and consequently the country would be immune from the pest; but it is evidently here to stay and will have to be faced. Last year whole crops of potatoes were destroyed because a supply of Pat green was not obtainable, dealers having failed to lay in a stock, but it is likely that precautions will be taken this season to prevent a recurrence of last year's experience.

"Work on the G.T.P. line between here and Edmonton is being rushed hard," said E. W. Jones, division engineer in charge of that division, when seen in Saskatoon this week. "We have ground well exposed and the present force of 1700 men and 500 teams will be increased to 2000 men and 1000 teams within two weeks. To give some idea of the progress I might say that by August I will have over 150 miles of graded track ready for the steel. Whether the steel will be laid or not depends on whether or not we can get the material. Steel and ties are now being shipped in and unloaded at our storage yards here, and as soon as enough arrive we will start laying steel from here out to meet the workers from Portage west."

The steel passenger car is now designed to replace the present wood passenger car on the steel railways just as rapidly as the iron situation looks the place of the wooden structure. R. R. Vaughan, assistant to the vice-president of the C.P.R., Montreal, who has been elected first vice-president of the Master Mechanics' association at the convention held in Atlantic City, said last week that the Atlantic City said last week that the immediate introduction of the new style of car that will be made on the American as well as the Canadian railway, will mean an increase of about 25 per cent in the cost of the passenger cars, but then it will mean increased strength, durability and safety. The Pennsylvania railway has already ordered 2000 of the new steel cars, and the C.P.R. is making arrangements to place them on their line.

PERSONAL.

NEW PASTOR ARRIVES.

Rev. Alphonse Lemarchand, O.M.I., who was assigned, in the Easter convention left for the pastorate of the church of St. Albert, immediate Cuperion, Kinsington avenue, has arrived in the city and taken over his charge.

Father Lemarchand will have associated with him in his new duties the Rev. Father Hetta, whose devoted and earnest work during the past six months has put the new parish on its present vigorous basis.

The new pastor, who has been transferred from St. Mary's church, Edmonton, having been curate at St. Michael's for five years. In his Calgary parish Father Lemarchand had been an energetic and popular pastor, the organization and building of St. Joseph's church for young men was accomplished by him and a handsome club house built at an expense of \$25,000.

DELEGATES RETURN.

Almost all the remaining delegates that have been in attendance at the Banded convention left for their homes this morning by the southern train from Strathcona. All expressed themselves delighted with the reception they received in the capital. Those visiting Edmonton for the first time were surprised at its size and the business done, which were far in excess of the ideas they formerly had. As the result of the convention many will carry away pleasant remembrances of their visit to Alberta's premier city.

FIRE ON NAMAYO AVENUE.

The fire brigade was called out at 3:30 yesterday afternoon to a large fire in the smokehouse of Kiemper's meat store on Namayo avenue north of the

C.N.R. tracks. When the firemen arrived the smokehouse was all ablaze and it was impossible to save it. The fire was also damaged. The fire started from the smoking stove, where too much heat had been applied to the woodwork of the building.
